Stephen Mann called Meeting called to order at 1:40 pm

1. Mr. Mann reviewed the agenda.
2. Minutes were approved as displayed on the web site.
3. Web status skipped as **Gary Garchar was not present.**
4. Treasurers' report by Mary Doherty who reported about \$196.15.

Old & New Business discussions that continued into the round robin:

5. Blade: light sport repairman course @Aero crafters is lacking people
6. FAA has a list of pilots without medicals as potential silver eagles.
7. Fly outs will be upgraded with a master list of destinations and distances.
8. rusty just flew 17 young eagles and a momma
9. Planned programs:
 - JULY: Suddenly camping by Gould & Vaughn (CAP).
 - AUG: Oshkosh reports by Steve Winegarden & Mary Doherty & Bob
 - Sept.: Powered parachutes by Bob Shea.
 - Oct.: Stephen Mann on his EAA builder's course
 - Nov: Magnum free lunch
 - Dec: Wings of History Christmas Party
 Other potential meeting ideas: wings of history presentation; Bob Meuse on B24; aircraft recovery

Business meeting purposefully brief for more program time & was closed at 1:58.

Program Meetings:

John Gould presented a review of suddenly camping with much participation from the audience. The handout was to generate creative thoughts and take notes. A light sport survival Red Fox kit is less than two lbs.

Mary Doherty presented a slide show of the winners of the Watsonville air show.

- A. The Round Robin talks concluded the meeting. See Vaughn's publication of the Round Robin.

EAA 110, your light sport Ultralight chapter, continues to champion a light sport repairman course to be conducted at Aerocrafters of Watsonville costing \$325 for the weekend. Aerocrafters has offered their space and the instructors will come to WVI, but we have to sign up 12 to 16 students. The first step is to get a list of interested parties so we can work on a date, hopefully in the next few months. If you would like to take this course locally, send an e-mail to Blade Doyle (EAA 110) who is compiling the list. bdoyle@lsd25.net

Red Fox Survival Kit

This high quality survival kit goes far beyond just the necessities and provides long-term protection. Included is food, water, shelter, tools, medical aids and signaling devices—all in a compact bag. And most importantly, the kit includes detailed instructions for surviving in the wilderness. Measures 9" x 6" w x 4" h closed and is expandable. Weighs 1.7 lbs. 9376A \$69.95
